

## **UPDATE ON EBAC CHIMNEY FELLING – SUNDAY 5 MAY 2019**

*3.30pm Saturday 4 May 2019*

The felling of EBAC of the two southern chimney stacks at the former Morwell Power Station is on schedule for tomorrow (Sunday, 5 May 2019) as part of the Energy Brix Australia Pty Ltd (EBAC) Demolition Project.

An exact time of the chimney fell cannot be given as the process is heavily dependent on several variables beyond the control of EBAC and its lead demolition contractor, Delta Group, including weather forecasts.

However the latest information is that the first chimney will be felled between 8am and 10am with the second to be felled between 11am and 1pm.
